Mr. Jeffreys calls them the "Berkley grape," after the old man on the farm who first discovered them; but we are of the opinion that they are the "Halifax" grape cultivated first by the late Sidney Weller, proprietor of the Brinkleyville Vinyeard, Halifax county, in this State. The description of the vines differs slightly, but the berries in size, color and taste, correspond with those of the "Halifax." Perhaps cultivation would show them identical in every respect. - Raleigh Sentinel.

PLASTER BANKS & SALT WORKS RAILTOAD AND GREENSBORRO PATRIOT. - The Greensporo' Patriot, seizing upon a remark in the Charlotte Democrat, of last week. which mistook the Plaster Banks & Salt Works Railroad for the Branch road from the Western N. C. Road to the "Lime Beds" in Catawba county, jubilates considerably and endeavors to persuade the people of Surry that the Plaster Banks & Salt Works Road has not "a ghost of a chance to be built." In this the Patriot is entirely mistaken. We can assure the people of Surry, Wilkes and Yadkin, that no contingency likely to happen, will prevent the building of this important road (to them) cartier than any other road likely to reach their borders, if their counties will render reasonable aid-what might be within the scope of their ability to perterm. The survey of this road has just been completed, and Capt. Bardwell makes a most favorable report of the route and moderate cost of building the road, from Statesville to Mt. Airy and the Virginia line. The construction of the road will be in the hands of gentlemen of energy and ability, who know no such word as "fail"-especially if the people of the counties through which it is to pass, will co operate as they should and as their interests will prompt them, no doubt, to do. Iredell, will do her share in the matter, although, she stands not in the same need of the road as the counties north of her. THE 15TH INST. - The examination of L. D. The examination was commenced by Judge Thomas reading the warrant issued for the arrest of the prisoner. The warrant was issued upon the affida-

A distinguished Methodist Minister and prominent Temperance Lecturer once remarked that go where he would, from one end of the country to the other, he hardly failed to find PLANTATION BITTERS, and while he condemned the practice of using these Bitters too freely, he could not conscientiously say that he would discard themifrom the side-board, for he had himself experienced beneficial results from their use, and that, from a long and close observation, he was convinced that when used moderately, and as a medicine exclusively, they were all that was recommended. At the same time he warned his hearers not to pull the cork too often, for they were too pleasant a tonic to trifle with.
